

BCS Agile Business Analysis Course with Online Exam

Duration: 3 Days **Course Code: BABA** **Delivery Method: Virtual Learning**

Overview:

Explore the role business analysis plays in successful Agile development projects, the philosophy behind Agile and the relevant methods and techniques. Analytical skills certification within the [BCS Advanced International Diploma in Business Analysis](#).

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is aimed at business analysts and anyone who needs a thorough practical knowledge of the role business analysis can play in the success of Agile development projects. Agile Business Analysis is also a Analytical Skills module on the BCS (ISEB) Advanced Diploma in Business Analysis.

Follow-on-Courses:

If this course is part of your BCS Advanced Diploma in Business Analysis programme you have a choice of further modules you can take including Business Architecture, Data Analysis, Advanced Requirements Engineering, Business Finance, Benefits Planning and Realisation, Stakeholder Engagement and Team Leadership.
