

Citrix Virtual Apps and Desktops 7 Assessment, Design and Advanced Configuration

Duration: 90 Days **Course Code: CWS-415** **Version: 7.19** **Delivery Method: Elearning (Self-paced)**

Overview:

This advanced Citrix e-learning course teaches the design principles for creating a Citrix Virtual Apps and Desktops virtualization solution. In this training, you will learn how to assess existing environments, explore different scenarios and make design decisions based on business requirements.

This e-learning course covers the Citrix Consulting approach to design and covers the key design decisions through lectures, lab exercises, and interactive discussions. Additional considerations and advanced configurations for multi-location solutions and disaster recovery planning are also incorporated into this class.

Citrix Virtual Apps and Desktops 7 Assessment, Design and Advanced Configuration

An exam voucher is included at this training.

Certification: CCE-V

Duration: 30 hours

Access: A Citrix eLearning course voucher expires one year from date of purchase. Once redeemed the voucher will provide you with access to the course for 90 days, but it could be less time if your voucher's expiration date is less than 90 days away.

This course includes an exam.

Target Audience:

IT Professionals with significant experience with Citrix Virtual Apps and Desktops 7 as well as supporting infrastructure. If you are responsible for the environment design and overall health, or are guiding others through the process (as a consultant), you should consider taking this training.

Objectives:

- **After completing this course you should be able to:**
 - Identify risks and areas for improvement in a Citrix Virtual Apps and Desktops environment by assessing relevant information in an existing deployment.
 - Determine core Citrix Virtual Apps and Desktops design decisions and align them to business requirements to achieve a practical solution.
 - Design a Citrix Virtual Apps and Desktops disaster recovery plan and understand different disaster recovery considerations.
-

Prerequisites:

Attendees should meet the following prerequisites:

- Extensive experience with Citrix Virtual Apps and Desktops 7 as well as experience with Citrix Gateway and supporting infrastructure.
- Attendance of **CXD-310** or **CWS-315** is recommended.
- CMB-318 - Citrix Virtual Apps and Desktops 7, App Layering, and WEM Administration (Fast-Track)
- CWS-215 - Citrix Virtual Apps and Desktops 7 Administration On-Premises and in Citrix Cloud
- CWS-314 - Citrix App Layering and WEM Administration
- CWS-315 - Citrix Virtual Apps and Desktops 7 Advanced Administration

Testing and Certification

Recommended as preparation for the following exams:

- Citrix Certified Expert - Virtualization Exam
- Please note you will need to have the CCP-V Certification in order to obtain the CCE-V Accreditation**
-

Content:

Methodology ; Assessment

- Methodology
- Business Drivers
- User Segmentation
- Application Assessment
- Capabilities Assessment

User Layer

- Endpoints ; Peripherals
- Citrix Workspace App
- Network Connectivity

Access Layer

- Access Matrix*
- Access Layer Architecture Design Considerations
- StoreFront Store Design
- Scalability and Redundancy

Resource Layer - Images

- FlexCast Model Assignment*
- Virtual Delivery Agent Machine Scalability
- Virtual Delivery Agent Machine Security
- Provisioning Strategy / Image Management

Resource Layer - Applications and Personalization

- Application Delivery
- Profiles
- Policies
- Printing*

Control Layer

- Citrix Virtual Apps and Desktops Site Design
- Machine Catalogs ; Delivery Groups*
- Site Management Considerations
- Control Layer Scalability ; High Availability
- Control Layer Security

Hardware/Compute Layer

- Assessment Considerations for Hardware ; Hypervisor Selection
- Cluster / Resource Pool Design
- Hardware / Compute Layer Sizing
- Storage
- Datacenter Networking
- Security

Maintaining an App Layering Environment

- Multiple Location Considerations - Introduction
- Multiple Location Considerations - Access
- Multiple Location Considerations - Image Management
- Multiple Location Considerations - Profiles ; Data
- Multiple Location Considerations - Printing
- Multiple Location Considerations - Control Layer

Disaster Recovery

- Disaster Recovery - Levels
- Disaster Recovery - Strategy
- Disaster Recovery – Process

*Optional content based on instructor criteria
